INDEX OF SUBJECTS

Abdomen, teratomatous tumours of, 314
Abortion, tubal, 95; Emmet's operation as a preventive of, 256; prognosis and treatment of criminal, 297
Acardiacus anceps, 341
Actinomycosis of ovary and pelvic connective tissue, 251
Affections of nervous system in women, gonorrhœal, 205
Albuminuria during labour, 65
Anatomy of pseudo-endometritis, pathological, 73

Bodies, intestinal foreign, 320
Bossi's Dilator, in obstetric practice, 298
British Gynæcological Society, report of meeting, 94, 214, 513
Broad-ligament fibromyoma of uterus, complicating pregnancy, 241

Cæsarean section, 466; Fritsch's fundal incision in, 21; modern. 52; under cocaine anæsthesia, 221; with remarks on similar operations done in Finland, 486; for eclampsia, vaginal, 487; on repeated, 555
Cancer of cervix uteri in advanced pregnancy, 99; fungating, 99; of Fallopian tube, primary, 82, 381; of stomach, secondary ovarian carcinoma following, 79; labour complicated by rectal, 392; in sixth month of pregnancy, vaginal hysterectomy for, 489; and malaria, antagonism between, 505
Carcinoma of corpus uteri, diagnosis of, 77; following cancer of stomach, secondary ovarian, 79; of Fallopian tubes, 309; of urethra in women, primary, 312; of uterus and pregnancy, 488; of uterus, surgical treatment of, 635
Castration by superheated steam in hæmophilia, uterine, 395
Cautery eschars in peritoneal cavity, importance of, 85
Cervix, dilatation of, by the Metranoikter of Schatz, 280
Cervix uteri, bimanual dilatation of, 299; primary tuberculosis of, 496
Clamp for the umbilical cord, 71
Cœliotomy, some complications arising subsequently to, 455; 514; illumination of abdominal cavity in vaginal, 504
Colon, influence of disease of ovary on, 319
Congress of gynæcologists, fourth international, 625
Cord, clamp for the umbilical, 71
Corpus uteri, diagnosis of carcinoma of, 77
Correspondence, Paris, 648
Craniotomy and cranioclasm in face presentation, 96
Curettage in puerperal infections, uterine, 191
Cyst of Wollffian duct, opening of left ureter into, 313
Cystoma complicating miscarriage, suppurating ovarian, 215
Cystoscopy in the female, technique of, 203
Cysts, study of bilateral ovarian dermoid, 200; during typhoid fever, infection of ovarian, 641

Danger from employment of weighted vaginal speculum, 199
Deciduoma malignum, is there any real, 94; hydatid mole and its relation to, 433
Delivery, ovarian tumour obstructing, 212; ovarian tumour obstructing, 231; unconscious, 494
Dermoids, two cases of pelvic, 226
Diagnosis by vaginal examination, 445
Diameter, transverse in the parturient woman, estimation of, 356
Drainage for pelvic diseases, 503

Dysmenorrhœa of girls and young women, 305

Eclampsia, use of thyroid extract in puerperal, 40; causation of, 63; treatment of puerperal, 65; puerperal, 211; case of puerperal, with *autopsy*, 269; vaginal Cæsarean section for, 487
Edinburgh Obstetrical Society, report of meeting, 97, 216
Egg-like cells in solid ovarian tumours, 15
Emmet's operation as a preventive of abortion, 256
Enchondroma of pelvis during pregnancy, sarcomatous, 99, 147
Endometrium, digital examination of, 319
Enucleation of uterine fibromata per abdomen, 74
Epithelioma of vulva, 98; of ovaries developed after total abdominal hysterectomy for cancer of cervix, cystic, 401
Eschars in peritoneal cavity, importance of, 85
Eventration, muscular insufficiency in causation of, 505
Exstrophy of bladder and split pelvis complicating labour, 377
Exudates, diagnosis and treatment of, 501

Face presentation, craniotomy and cranioclasm in, 96
Fallopian tube, primary cancer of, 82, 381; sounding the, 201; fibromyoma of the, 201; primary carcinoma of, 309; pregnancy in stump of, 489
Fibroid, removed from gravid uterus by morcellement, 62; strangulation of a pedunculated subperitoneal uterine, 95
Fibroma from anterior vaginal wall, 98; of the ovary, pathology of, 128
Fibromata, enucleation of uterine, 74; ovarian, 399
Fibromyoma of uterus, myomectomy in treatment of, 76; of the Fallopian tube, 201
Fibro-myomata uteri, analysis of 100 cases of, 323
Fixation abscess, treatment of puerperal infection by, 495
Forceps, use and abuse of, 98; in anterior face and brow presentations, use of, 301; deep transverse arrest of the head as an indication for, 301
Fritsch's fundal incision in conservative Cæsarean section, 21

Gestation, primary ovarian, 11, 93; extra-uterine, 97; intraperitoneal hæmorrhage incident to ectopic, 409
Glasgow Obstetrical and Gynæcological Society, report of meeting, 99, 319
Gonorrhœal affections of the nervous system in women, 205
Growth from cicatrix after hysterectomy, secondary, 215
Gynæcologists, meeting of obstetricians and, 105; fourth international congress of, 625

Hæmatocele, intra-abdominal hæmorrhage and pelvic, 399; on formation of, 500; paratubal, 609
Hæmophilia, uterine castration by superheated steam in, 395
Hæmorrhage sixteen days after vaginal hysterectomy, secondary, 97; treatment of accidental, 153; during late months of pregnancy and early stages of labour, 216; in removal of pelvic tumours, control of, 308; into spinal cord during pregnancy, 393; and pelvic hæmatocele, intra-abdominal, 399; incident to ectopic gestation, intra-peritoneal, 409; treatment of post-partum, 636
Hyperæsthesia, paroxysmal vulvo-vaginal, 499
Hypernephroma of kidney complicating pregnancy, 190
Hypertrophy of single functional kidney as proof of renal activity during fœtal life, congenital, 71
Hysterectomy for cancer of uterus, results of, 78; secondary hæmorrhage after vaginal, 97; abdominal, 99; vaginal, 99; three uteri removed by vaginal, 214; secondary

growth from cicatrix after, 215; for pelvic obstruction by fibromyomata, abdominal total, 234; without forceps, vaginal, 307; relative advantages of complete and partial, 397; for cancer in sixth month of pregnancy, vaginal, 489; in the treatment of puerperal infection, 630

Index obstetricus, 89, 207, 316, 402, 508, 644
Induction of labour, medical indications for, 490
Infant, problem of the post-mature, 521
Inversion of uterus of seven months duration, 462, 512
Irritability, vesical, as result of anteflexion of uterus, 100

Kidney, congenital hypertrophy of single functional, 71; hypernephroma of, 190
Küstner's method of laparotomy, 82

Labour, albuminuria during, 65; peroneal paralysis following, 66; causal relation of first stage of, to rupture of uterus, 100; micromely of fœtus in morbid, 191; first stage of, its causal relation to uterine rupture, 372; exstrophy of bladder and split pelvis complicating, 377; complicated by rectal cancer, 392; medical indications for induction of, 490; adhesions between margins of external os during, 493; vulvar varicosities in, 494
Laparatomy by incision near symphysis pubis, 82; peritonisation after, 83
Ligament, pathology of the round, 498
Lipoma, retroperitoneal, 244

Malaria, antagonism between cancer and, 505
Metranoikter of Schatz, dilatation of cervix by, 280
Meeting of obstetricians and gynæcologists of the empire on June 24th, 105
Menopause, on the, 194; case in which pregnancy occurred after, 290
Micromely of Fœtus in morbid labour, 191
Micro-organisms of vaginal secretion during pregnancy, 291
Miscarriage, suppurating ovarian cystoma complicating, 215
Mole, and its relation to deciduoma malignum, hydatid, 433
Myoma of the vagina, 198
Myomectomy, its place in treatment of fibromyoma of uterus, 76

Nervous system, gonorrhœal affections of in women, 205
North of England Obstetrical and Gynæcological Society, report of meeting, 95

Obituary Notice:
Porro, Edouard, 405
Obstetrical Society of London, report of meeting, 92, 211, 512
Obstetricians and gynæcologists, meeting of, 105
Œdema of neck of gravid uterus, 188
Operations on urinary organs, rare, 400
Os during labour, adhesions between margins of external, 493
Ovaries and rudimentary uterus, without any vagina, cystic, 215; epithelioma of, 401
Ovariotomy, repeated, 98; 366
Ovary, dermoid tumour of, 98; tumours affecting, 116; pathology of fibroma of, 128; case of actinomycosis of, 251; sarcoma of, 311
Ovum, artificial utilization of extra-embryonic portion of, 69

Paralysis following labour, peroneal, 66
Pedicle, twisting of ovarian, 200
Pelves, two Nægele, 470
Pelvis, generally-contracted, with rupture of uterus, 190
Peritonisation after laparatomy, 83
Peritonitis, acute general gonorrhœal, 642
Placenta prævia centralis, two cases of, 388

Polyhydramnion, differential diagnosis and treatment, 389
Pregnancy after removal of both ovaries for cystic tumour, 1, 92; connected with malaria, quinine in, 62; sarcomatous enchondroma of pelvis during, 99; cancer of cervix uteri in advanced, 99; sarcomatous enchondroma of pelvis during, 147; conservative or expectant treatment of extra-uterine, 173; in left half of a uterus didelphys, 187; hæmorrhage during late months of, 216; history, diagnosis and prognosis in case of ectopic, 264; in tabes dorsalis, 289; which occurred after menopause, 290; quinine in, 291; urobilinuria in, 291; micro-organisms of vaginal secretion during, 291; anatomical changes of the sac in extra-uterine interstitial, 292; ovarian, 292, 394; complicated by cancer of uterus, treatment of, 294; typhoid fever during, Widal's reaction in mother and child, 296; biology and pathology of, 387; intestinal obstruction during, 391; hæmorrhage into spinal cord during, 393; in stump of Fallopian tube, 489; medical indications for artificial interruption of, 625
Presentations, use of forceps in anterior face and brow, 301
Processus vaginalis peritonei, pathology of, 498
Prolapse in a virgin, utero-vaginal, 198; treatment of severe cases of genital, 499
Pseudo-endometritis, pathological anatomy of, 73
Puerperal infection of septicæmic type, treatment by fixation abscess, 495
Puerperium, intestinal obstruction during pregnancy and, 391
Pyosalpinx removed after seventeen years suffering, double, 215

Quinine in pregnancy complicated with malaria, 62; in pregnancy, 291

Reprints and transactions, selected, 470
Retroflexion of uterus, treatment of inveterate, 197
Retroversion and flexion of uterus, 195; of gravid uterus, and its surgical treatment, 639
Reviews of books:
'Abdominal examination and manipulation in pregnancy,' MacLennan, 519
'Allgemeine gynæcologie,' Kossmann, 517
'American Gynecology,' 321
'American Illustrated Medical Dictionary,' Dorland, 322
'Clinical Illustrations of Diseases of Fallopian Tube and of Early Tubal Gestation,' Cullingworth, 515
'Der Kunst der Juno Lucina in Rom,' Curatulo, 219
'Deux Questions Obstétricales,' Bar, 408
'Diseases of Women,' Bland-Sutton and Giles, 103
'Essentials of Obstetrics,' Jewett, 102

Royal Academy of Medicine in Ireland, 100
Rupture of the abdominal wound after operation, spontaneous, 202; uterine, 372

Sarcoma of uterus associated with fibromyoma, 258; of the ovary, 311
Section and drainage for pelvic diseases, vaginal, 503
Speculum, danger from employment of weighted vaginal, 199
Spermatoza, life and vitality of, 192
Stomach, hair-ball tumours of, 204
Strangulation of a pedunculated subperitoneal uterine fibroid, 95
Stratification of epithelium of body of uterus, benign, 305
Symphysotomy in domestic and hospital practice, 32

Tabes dorsalis in pregnancy and labour, 289

Technique of cystoscopy in female, 203
Thrombosis, septic utero-ovarian, 67
Thyroid extract in puerperal eclampsia, use of, 40
Transverse diameter in the parturient woman, estimation of, 356
Tuberculosis of cervix uteri, primary, 496; of the female genital organs, 633
Tumour, pregnancy after removal of both ovaries for cystic, 1, 92; egg-like cells in solid ovarian, 15; of ovary, dermoid, 98; obstructing delivery, ovarian, 212, 231
Tumours, of unusual type affecting the ovary and broad ligament, 116; of the stomach, hair-ball, 204; of the internal generative organs, diagnostic value of contractions in, 306; control of hæmorrhage in removal of pelvic, 308; of abdomen, study of teratomatous, 314
Twisting of ovarian pedicle, 200
Typhoid fever during pregnancy, 296; infection of ovarian cysts during, 641

Ureters severed during abdominal operations, present methods of treating, 86
Urethra, carcinoma of, in women, 312
Urobilinuria in pregnancy, 291
Use and abuse of forceps in general practice, 98
Uteri, value of floating-lung test in septic, 192; removed by vaginal hysterectomy, three, 214
Uterus, submucous fibroid removed by morcellement from gravid, 62; hysterectomy for cancer of, 78; causal relation of first stage of labour to rupture of, 100; vesical irritability as result of acute anteflexion of, 100; didelphys, pregnancy in left half of a, 187; œdema of neck of gravid, 188; contracted pelvis with rupture of, 190; retroversion and flexion of, 195; treatment of inveterate retroflexion of, 197; rudimentary, without any vagina, 215; broad-ligament fibromyoma of, 241; sarcoma of, 258; treatment of pregnancy complicated by carcinoma of, 294; benign stratification of epithelium of body of 305; inversion of, 462, 512; carcinoma of, and pregnancy, 488; pathological changes in vessels of, 497; bicornis with rudimentary right horn, 514; surgical treatment of carcinoma of, 635; retroversion of gravid, and its surgical treatment, 639

Varicosities in labour, vulvar, 494
Vagina, myoma of the, 198
Villi, transportation of chorionic, 302
Virgin, utero-vaginal prolapse in a, 198
Vulva, epithelioma of, 98

Wolffian duct, opening of left ureter into cyst of, 313

INDEX OF AUTHORS

Adam, James, 377
Amann, J. A., 633

Babcock and Noble, 400
